

ORB Logs Explained - Participants

The start date for each Section of the Award will be from the Monday of the week in which you log your first activity for that Section. For example, if your first log for their Skill Section is on Wednesday 3rd January, the start date for your Skills Section will be Monday 1st January. A week is Monday to Sunday inclusive and you can only count 1 hour per-week towards your total hours. If you are doing more than one hour per week of activity for a Section, and recording the additional hours on the Online Record Book, you can back count a maximum of 3 hours if there is no activity in the previous 3 weeks (NB this does not apply to the first log which will only ever count for a maximum of 1 hour).

If the activity is done on a regular basis of 1 hour per week the system will credit the 1 hour towards that Award Section.

The screenshot displays the ORB interface for a participant. On the left, a sidebar shows progress for various sections: Silver Level (Completed 0 / 4), Skills, Basketball (Physical Recreation), Voluntary Service, Adventurous Journey, Preparation and Training, Practice Journey, and Qualifying Journey. The main area is titled 'Basketball' and shows a progress bar at '1 h / 26 h'. Below this, a log entry is highlighted with a blue box: 'Played a game against Wellington Grammar School.' dated '1/09/2021' for '1h 0min'. A yellow callout box points to the '1 h / 26 h' progress bar, stating: 'The hour logged has been counted towards the total hours.' At the bottom right, there is a yellow button labeled '+ ADD LOG'.
